-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Amendment, filed on 19 April 2004, has been considered and entered.

Drawings

Formal drawings submitted on July 15, 2003 are not accepted for following reasons.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference character(s) mentioned in the description:

- (1) Fig 1 does not show interconnect tab portion as described in specification.
- (2) Fig 4 does not show male end 175 and key slot 177 as described in specification, however, original informal drawing (Fig 3) shows.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction

Art Unit: 2879

of the following is required: Claims 5 & 10 recites connector (200) includes "a key".

Specification does not mention that the connector includes a key.

Claim Objections

Claims 5, & 10 are objected to because of the following informalities: Amended claim 1 recites "a key pin" which is considered as the pushpins 211 of Fig 5, and claim 2 recites "a locking pin" which is described as pin 203, however, claims 5 and 10 further recite "a key", it is not understood which element applicant is referring to.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15, 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 15 & 16 recite the limitation "the male end". There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1-2, 4, 6-9, 11-13, 17-19 are allowed over the prior art of record.

Examiner's Reasons for Allowance

The following is an examiner's statement of reason for allowance:

Regarding claim 1, the prior art of record neither shows nor suggests the combination of limitations set forth in claim 1, particularly the limitation of connector includes a key pin for aligning the connector with the interconnect tab portion.

Art Unit: 2879

Regarding claim 6, the prior art of record neither shows nor suggests a sign comprising all the limitations set forth in claim 6 , particularly the limitation of dielectric layer perimeter extending beyond the second perimeter of the phosphor layer and a sealing layer formed on at least a portion of the exposed dielectric layer, together with other cited limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
